EXPERIENCE

inVentiv Health Creative Studios *Senior Developer* **2015 – current**
- Developed and deployed full-stack and front-end web-based solutions for pharmaceutical and healthcare clients
- Created written standards for development team regarding best practices, common resources, and onboarding assistance
- Performed lightweight UX design and encouraged greater collaboration between developers and designers
- Mentored other developers, particularly in responsive principles and implementation of accessibility

Abercrombie & Fitch *Front End Developer* **2013 – 2015**
- Contributed to and maintained large-scale front-end codebases (HTML5, CSS3/Sass, JS, JSP/JSTL) to translate design & project directives into impactful experiences for millions of daily viewers on all four of Abercrombie's brands
- Launched high-performing, interactive marketing experiences with cross-browser compatibility in an Agile environment
- Prototyped concepts bridging design and development, such as merging mobile and desktop codebases into single responsive approach for abercrombie.com, heavy parallax manipulation at 60fps, and custom Twitter functionality
- Mentored junior developers in HTML, CSS, and JavaScript

Art Brands Inc. *Web Developer* **2013 – 2013**
- Extended and updated eCommerce front-end for modern design, UX, and performance needs

irisnote (formerly Rescentris) *Graphic Designer / Web Designer, Developer* **2011 – 2013**
- Redesigned, developed, and launched corporate website for scientific research software startup; distributed/remote team
- Designed UX elements and graphics for desktop and dedicated iPad application
- Created and implemented digital marketing strategy and content generation and publication
- Managed all website administration tasks including migration and content management, domain registration, web hosting, URL pathing/redirects, SEO optimization, Salesforce integration, analytics tracking

Freelance *Graphic Designer / Web Designer, Developer* **2007 - 2014**
- Designed and developed websites, blogs, logos, branding, and advertising elements from Photoshop to HTML/CSS/JS/WordPress for variety of individuals and small businesses; Created custom Etsy App for teams using Etsy.com API

Battelle Memorial Institute *Research Associate* **2004 – 2010**
- Led complex biotech research experiments from start to finish; experienced managing multiple tasks simultaneously, professional client interaction, effective task communication and reporting, and strong team building skills
- Held Department of Defense Secret Clearance and Department of Justice handling of Select Agents clearance
